

The line plot, titled "waiting\_times", displays the waiting times for 10 subjects at two time points. The y-axis represents the waiting time, ranging from 0 to 10. The x-axis represents the time points. The plot shows that for most subjects, the waiting time decreased from the first time point to the second time point. The lines are colored red for the first time point and blue for the second time point.

Subject	Time Point 1	Time Point 2
1	8.5	9.5
2	1.5	1.2
3	1.2	1.0
4	1.0	0.8
5	0.8	0.6
6	0.6	0.4
7	0.4	0.2
8	0.2	0.1
9	0.1	0.0
10	0.0	0.0
